- **Your numbers.** Know Your Numbers sets the true costs every app prices from.

WHERE TO START

1 Start with Know Your Numbers

Build your budget first: true labor cost, overhead, crew efficiency and the rate you need per man-hour. $79/mo, BidClaw Pro included.

2 Run your work on those numbers

Install jobs: estimate and propose in BidClaw.

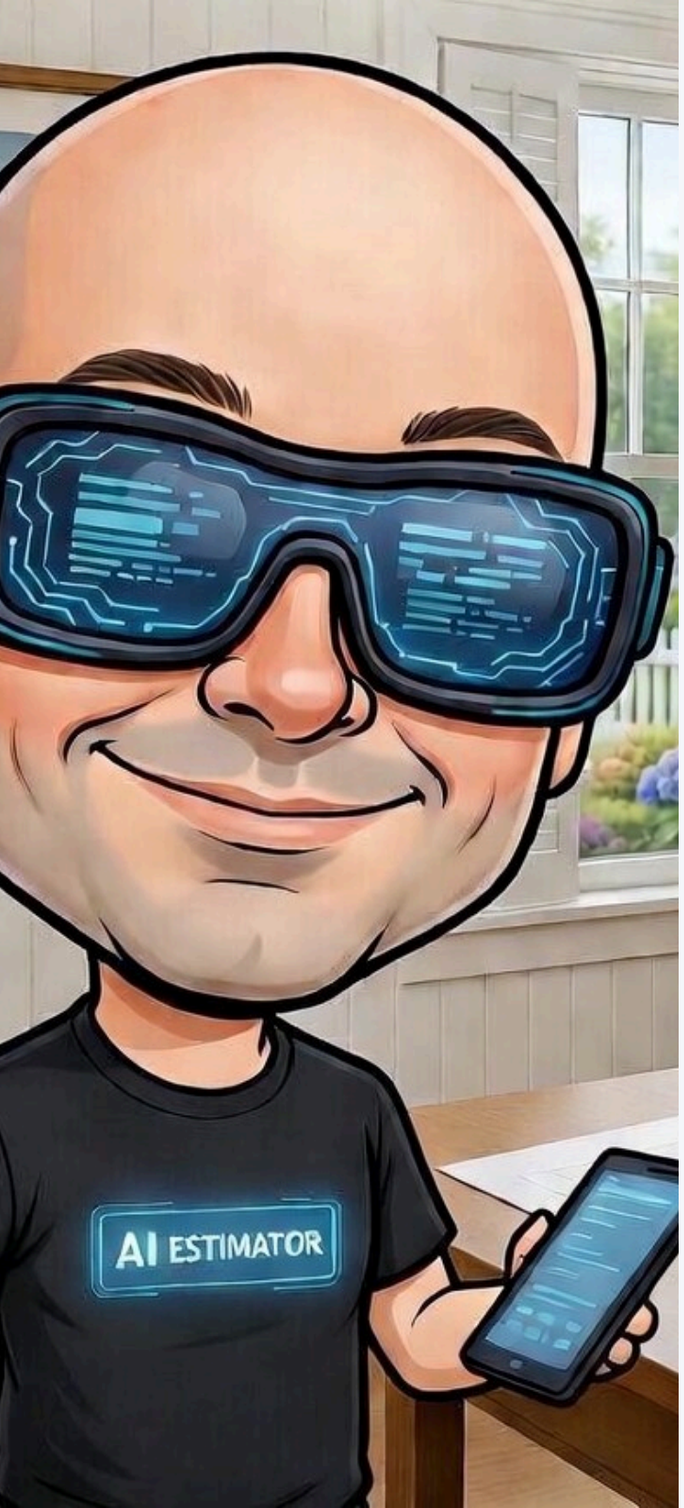

Routed maintenance: schedule, track and bill in RouteClaw.

Either way, every price covers your costs and your profit.

3 Add the apps you run

Put your crews on CrewClaw for $39/mo (free with AI Jamie). Maintenance pricing is on page 6; the rest bolt on from the Claw Suite.

05 · MEET AI JAMIE

Jamie builds the estimate. You check it and send it.

Jamie is the AI estimator inside BidClaw. Nothing goes to a client until you approve it. Give him the job three ways:

1. Type the scope

Plain words, like you would tell a foreman.

2. Drop in a plan

PDF or photo. He reads the dimensions and labels.

3. Walk the job

Record it on your phone and talk it through.

WHAT'S IN BIDCLAW NOW

Proposal Studio

Design the proposal: 4 styles, cover photo, letter, Good/Better/Best packages and a schedule. See which pages the client read.

Measure to scale

Set the scale on a plan, then measure areas, lengths and counts. Jamie suggests the takeoff and you confirm. Aerial map measuring in early access.

Renderings

Jamie paints the finished work onto a site photo, two versions in about a minute, ready for the proposal.

Jamie on every screen

Talk or type: "build me an estimate." He moves around BidClaw for you. Tuck him away anytime.

WIP journal entries

Each sold work area posts its journal entry to Construction WIP in QuickBooks. No hand-keyed entries.

Priced on your numbers

Every line uses your Know Your Numbers rates: your labor cost, overhead and margin.

JAMIE THE ASSISTANT +$40 /mo

Add to Pro or Know Your Numbers ($119/mo with both). He gets you around the app; he doesn't build the estimate.

AI JAMIE ESTIMATING $499 /mo

Jamie builds the estimate. Includes Know Your Numbers, the assistant, CrewClaw and 20 renderings a month.

Try him free: the free BidClaw plan includes a watermarked Jamie demo. AI features include a monthly usage allowance; heavier use, extra renderings or added AI services may cost extra.

06 · MAINTENANCE PRICING

Routed maintenance. Priced by the crew.

Landscape maintenance and pool service run in RouteClaw. The CrewClaw field app is included from Pro up.
